03 EPCC Service

Upgrading, Maintenance Service

Scope of Service:

Provide Production Facilities Upgrading, Maintenance Service for Oil&Gas Field

- Static Equipment (Separator, Exchanger, De-salter, De-hydrator, Open/Close Drain Drum, Oil/Water Tank, Stabilizer Tower, Furnace, Flare, Slug Catcher Etc.)
- Rotating equipment (pump, compressor, air cooler and chemical injection skid, etc.)

Upgrading, Maintenance Service

Scope of Service:

Provide Production Facilities Upgrading, Maintenance Service for Oil&Gas Field

- Oil and gas pipelines (Flow Line, Trunk Line, Long-Distance Pipeline etc.)
- Automatic control instrument facilities (panels, control cable, optical cable, field instruments, etc.)

Upgrading, Maintenance Service

Scope of Service:

Provide Production Facilities Upgrading, Maintenance Service for Oil&Gas Field

- Power facilities (generator, power cables, transformers, switchgear, power transmission line, lighting, grounding, etc.)
- Anti-corrosion engineering (cathodic protection, de-rusting, painting/coating, insulation, etc.)

Scope of Service:

Provide Production Facilities Upgrading, Maintenance Service for Oil&Gas Field

- Civil engineering (road, foundation, building, etc.)
- Procurement services (spare parts, tools, equipment, materials, chemicals, etc.)

Advantage and Achievement:

- International standardizing maintenance team with rich experience ;
- Complete Construction Equipment and Special Tools;
- 24-hour rapid response, one-stop solution to various problems of production facilities.
- Complete more than 800 all kind maintenance works of production facilities for Petrochina, CNOOC, Petronas, Lukoil.

Contents

01 Engineering Construction, Maintenance

02 Upgrading, Maintenance Service

03 EPCC Service

Scope of Service:

Provide EPCC Service for Oil and Gas Field

- Oil & Gas Process Facility Include Well Pad, Oil Gathering Manifold(OGM), Centre Process Facility(CPF),Flow Line, Truck Line, Long-Distance Pipeline Etc., etc.
- Water Treatment Facility (oily sewage treatment, Oil Field Water Injection, water supply and drainage, firefighting water system, etc.)

Scope of Service:

Provide EPC Service for Oil and Gas Field

- Electrical, Communication, Automatic control system Facility (Transmission line, Substation facilities, CCTV, Perimeter Alarm System, Instrument Etc.)
- Infrastructures (Roads and Bridge, Building, HVAC, Decoration etc.)
- Digital Oilfield EPC Projects)

Advantage and Achievement:

- Advanced International Management System;
- Global Purchasing Support Network Provides Strong Purchasing Logistics Support
- Experienced and Professional Project Management Team
- Complete 6 EPC/PC project for Petrochina, CNOOC, Petronas.
