

**ANTON 安東**

A horizontal banner with a dark blue background. On the left side, there is a solid red vertical bar. The background of the banner shows a faint, blue-tinted image of an oilfield with a central derrick and other structures. The text "Oilfield O&M Service" is centered in white.

# Oilfield O&M Service

**东方智慧 全球分享**  
Oriental wisdom , Global sharing

- **Full coverage of products and technical services**
- **Full range of professional resource services**
- **Optional services solution for the whole process**

In the field of oil and gas field operation and management, we provide products and technical services with full coverage  
Help customers to achieve safe, high quality, efficient and low-cost integrated station operations management

## 1. Operations management services

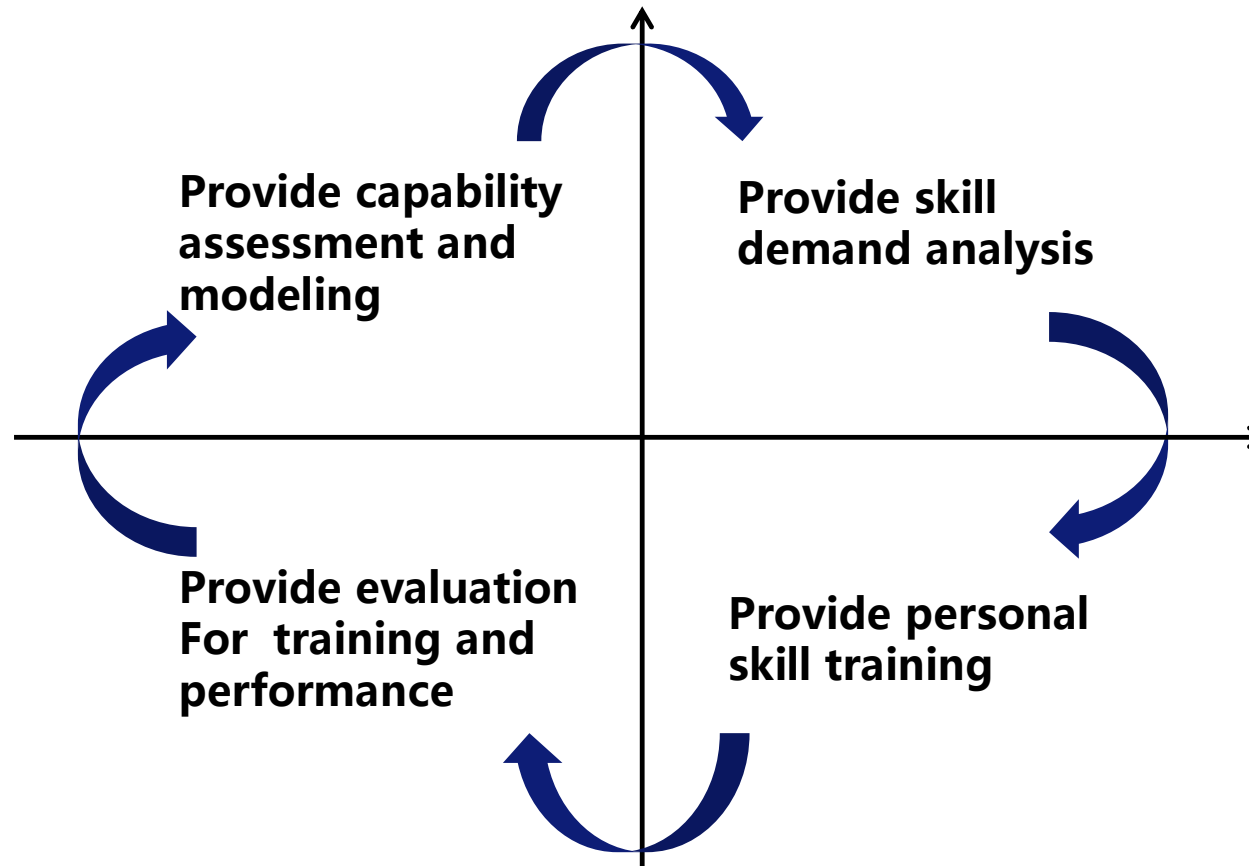

The services content	Services scope
<b>Station operations management</b>	Central processing station, out-of-station oil and gas equipment, well site, long distance pipeline, off-site pump station, etc
<b>Gas treatment system operations management</b>	Natural gas treatment, sulfur recovery, natural gas dehydration, recovery of light hydrocarbon and liquefied gas, natural gas compression system, etc
<b>Water treatment system operations management</b>	Production sewage treatment, desalinated water treatment, water injection, etc
<b>Power system operations management</b>	Gas and oil turbine generator, diesel power generation, electric power overhead line, high and low voltage substation, etc
<b>Laboratory operations management</b>	Laboratory equipment
<b>Operations management of cathodic protection system</b>	Cathodic protection system control panels and detection point, etc
<b>Wellhead operations management</b>	Well tree, wellhead control panel, etc

## 2. Maintenance management services

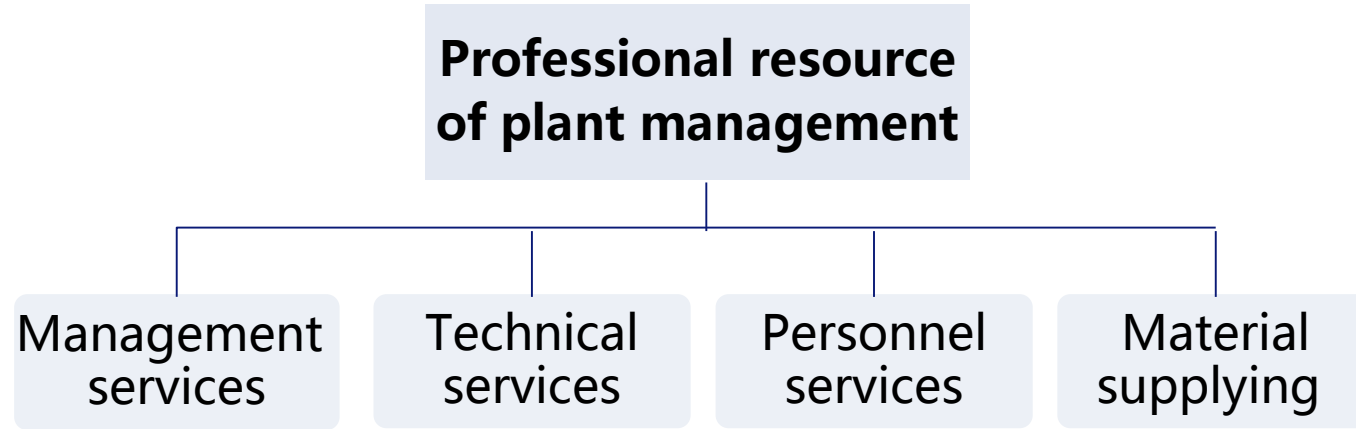

The services content	Services scope
<b>Integrated maintenance service</b>	Mechanical maintenance service, pipeline service, electrical maintenance service, instrument maintenance service, repairing workshop service, scaffolding service, heating and ventilation service, insulation/painting/repairing service, control system maintenance service, electric welding service, etc
<b>Non-production facility maintenance service</b>	Camp maintenance service, fire and gas monitoring system maintenance service, diesel generator maintenance service, etc

## 3. Positions skill training services

- Full coverage of products and technical services
- Full range of professional resource services
- Optional services solution for the whole process

- 1. Management services :** Relying on high standard management system. Focus on customer demanding, establish plant management system. Make the station management in a efficient and safety modal. During the servicing time, connect Shell, Lukoil, CNOCP, CNOOC to establish the right plant management that satisfied by customer
- 2. Technical services :** High level professional engineers team provides the global technical services. Achieve accurate analysis, judgment and rapid solution of site problems, ensure equipment working rate, achieve sustainable and stable production
- 3. Personnel services :** A large number of experienced professional and technical personnel reserve. Have recruitment channels in multi-country labor market and a sound talent training system, ensure the continuous export of professional plant management personnel.
- 4. Material supply:** Have the system of global supply chain, backup for worksite tools, materials and logistics clearance

- Full coverage of products and technical services
- Full range of professional resource services
- **Optional services solution for the whole process**

**Focus on the demand of the customers, providing commissioning, operations & maintenance, integrated plant operations management services.**

- 1. Commissioning Services :** Provide EPC project plans, commissioning plans. Provide the whole operations services from equipment testing to handover the smoothly station
- 2. Operations and Maintenance Services :** Provide the operations and maintenance services for all process from wellhead to oil export
- 3. Integrated operations and maintenance services :** Change the organization mode of plant operations management. Transfer the original specialized organization mode into the Integrated mode. By using site management, technology management, global supply chain and subcontractor management, to make the whole process under control, finally make the management achieve maximizing effectiveness

## □ List of Services Experiences

No.	Client	Name of Project	Type of Services	Type of Unit	Date of Service	Location of Service
1	Iraq SOC	Majnoon Integrated Oilfield	Oilfield operations management	Integrated Oilfield	2018.4-2020.4	Iraq-Majnoon
2	Lukoil	General Maintenance Services	Maintenance	CPF & FSF	2016.7-2019.7	Iraq-WQ2
3	Petro China	CPF1,CPF2 O&M	Operation & First Line Maintenance	Oil Treatment	2012.7-2018.4	Iraq-Halfaya
4		Gas Turbine-Generator Power Plant O&M	Operation & First Line Maintenance	Power Plant	2015.3-2018.3	
5		Gas Receive Station(GRS) O&M	Operation & First Line Maintenance	Gas Treatment	2013.1-2014.4	
6		Production Facility Maintenance	Maintenance	CPF & FSF	2013.3-2019.9	
7		CPF Operation Project	Operation	oil, gas, water treatment	2017.3-2019.3	Iraq-Ahdeb
8		Gas Lifting Oil Production Service	Operation & Maintenance	Gas lifting well and gas station	2011.3-2013.3	Sudan-KEYI
9		CNOOC	Production Facility Maintenance	Maintenance	CPF & FSF	2012.12-Now
10	Gazprom	Well Control Panel Installation Services	Installation &Commissioning	Well Control Panel	2016.6-2018.3	Iraq-Badra

# Experience of Performance Services

**Project Type :** General Maintenance Services

**Project Name :** Lukoil , GMS

**Location :** WQ-2 field, Iraq

**Safety Operation Days: 1095**

**Project services content:**

**Provide all oilfield**

- Mechanical maintenance services
- Electrical maintenance services
- Instrument maintenance services
- Smart pigging services of pipeline system
- Over Head Line maintenance services
- On Job Training services

**Project Type** : Operations and maintenance services for central processing stations.

**Project Name** : CPF1, CPF2 O&M Services

**Location** : Halfaya field, Iraq

**Safety Operation Days: 3514**

## Project services content:

- Provide all systems operations services for CPF1 and CPF2
- Mechanical maintenance services
- Electrical maintenance services
- Instrument maintenance services
- On Job Training services

# Experience of Performance Services

**Project Type** : General maintenance Service

**Project Name** : General maintenance Service for facility of Halfaya oilfield

**Location** : Halfaya oilfield, Iraq

**Safety Operation Days: 2524 days**

## Project services content:

- Provide general maintenance services for all facility of Halfaya oilfield
- Vessel inspection and clean
- Electrical system updatation
- Facility update and new facility installation
- On job training
- Supply chain service for client

## Experience of Performance Services

**Project Type** : Power plant operations and maintenance services

**Project Name** : CPF-1, CPF-2 Power Plant O&M Services

**Location** : Halfaya field, Iraq

**Safety Operation Days: 3160**

### Project services content:

- Provide all operations systems services for power plant
- Mechanical maintenance services
- Electrical maintenance services
- Instrument maintenance services
- Operations and maintenance services for turbine generator sets

# Experience of Performance Services

**Project Type** : Operations and maintenance services for gas station

**Project Name** : Gas station operations and maintenance

**Location** : Halfaya field, Iraq

**Safety Operation Days: 560**

## Project services content:

- Provide operations services for gas station
- Mechanical maintenance services
- Electrical maintenance services
- Instrument maintenance services
- On Job Training services

# Experience of Performance Services

**Project Type :** Wellhead control panel services

**Project Name :** Wellhead control panel purchasing and installation Services

**Location:** Halfaya/Badra oilfield, Iraq

**Safety Operation Days: 760**

## Project services content:

- Design, manufacturing, installation, removing services for control panels
- Routine check services
- Operations services
- Maintenance services
- Hazard analysis and trouble shooting services
- Commissioning service

# Experience of Performance Services

**Project Type** : General maintenance Service

**Project Name** : General maintenance Service for block 11 in Iraq kurd area

**Location** : block 11 in Iraq kurd area

**Safety Operation Days: 424 days**

## Project services content:

- Provide general maintenance services for all facility of Halfaya oilfield
- Updates, trouble shooting and replacement
- Facility update and new facility installation
- On job training
- Supply chain service for client

# Experience of Performance Services

## Qualification Certificates

Continued safe and smooth operation days: 3040

ISO 9001:2015  
ISO 14001:2015  
OHSAS 18001:2007
