

Hydrogen energy

Hydrogen energy

□ Integrated green hydrogen service

□ Electrolytic water hydrogen production unit

- New energy such as solar energy and wind energy can be used to generate electricity and hydrogen without pollution emission
- High purity of hydrogen production, up to 99.99999%

□ Natural gas reforming hydrogen production unit

- Mature technology, short process, low investment, stable production capacity and environment-friendly
- Skid mounted, customized small-scale hydrogen production unit for oilfield natural gas / associated gas

□ Complete hydrogen turbine power generation technology series and capacity

- The introduction of Italian novalt gas turbine technology can realize mixed hydrogen combustion with different ratios, up to 100% hydrogen combustion

Hydrogen energy

□ More application scenarios :

Hydrogenation station

Fuel cell

Energy storage

Industrial application

Gas sales

.....

**A paragon of efficient and harmonious
development between human and environment**

Help others succeed...
